

糖尿病
レポート②

II型糖尿病の
幹細胞の有効性

Jianxia Hu ,et .al.
Long term effects of the implantation of
Wharton's jelly-derived mesenchymal
stem cells from the umbilical cord for
newly-onset type 1 diabetes mellitus
: Endocrine Journal 2013, 60 (3), 347-357

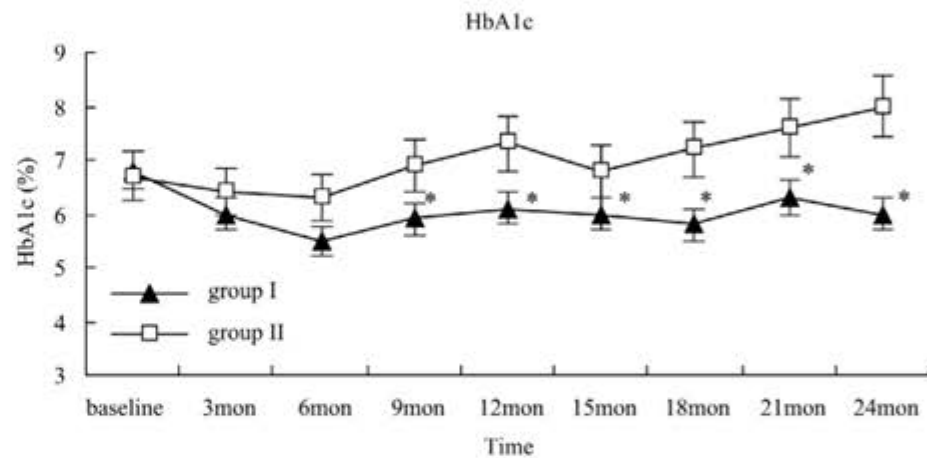

Fig. 3 Changes in HbA1c over time
* HbA1c in group I was significantly lower than that in group II over different time points using repeated measure ANOVA ($P < 0.05$).
